

## The Legend of the Digi-cryst

1

Wisdom is precious in the Matrix, those who possess it are feared and worshipped. The Oracle Snatch is the wisest of the Oracle. Her knowledge is immense and her powers of communication are greater than any other. Snatch does not speak, she communicates through her son, a mutant who transmits the Oracle's words - the two are telepathically linked and are inseparable.

As Gen approached the grotto of the Oracle, she sensed a transmission from the mother/son interface, "Only the faithful may enter here, wisdom is only available to those worthy of knowledge and truth". Gen responded with a thought communication informing them of her mission to locate BDM's weaknesses and to destroy his reign of terror.

The Oracle made a quick scan of Gen's brain data to verify her communication, and was soon allowed admission into the grotto. "We welcome you Gen, your mission is favourable to us as we have battled many times with BDM, but the old wisdom is no match for BDM's wizardry. There is only one way to destroy BDM and that is by dismantling the digi-cryst. Many Matrix moons ago, the digi-cryst was stolen by the Cortex Crones from its guardian by the Cortex Crones. The digi-cryst is BDM's weak point, the flaw at his core. The digi-cryst is a part of BDM, but it exists outside of his databanks, it is an antenna which transmits knowledge and information from the Matrix, so that he can maintain his omnipotent power."

The Oracle continued, "The digi-cryst was kept by Circuit Boy in his shining penis; the Cortex Crones in their cleverness seduced the Boy and in doing so unscrewed his penis and removed the digi-cryst. Circuit Boy is the protector of the digi-cryst and knows its secret, he has attempted many times to enter the Fractal Mountains of Bliss where the digi-cryst is kept, but the Crones are sly and can outwit the techno-bimbo. But Gen, the Crones are made of ancient circuitry and do not possess the power to dismantle the digi-cryst. You must go to the Fractal Mountains, get the digi-cryst and prepare to battle for knowledge with Circuit Boy."

2.

Gen was greeted at the Fractal Mountains of Bliss by an old Crone, the Crones had been expecting her and took her immediately to the digi-cryst. "Gen, we have guarded the digi-cryst for many milleniums and have waited for a great soldier of slime with the power to outwit Circuit Boy and sabotage the databanks of Big Daddy Mainframe. We stole the digi-cryst but did not have the power to destroy it - there is only one way to do

this - you must return it to Circuit Boy's shining penis. But Gen do not screw the penis back on, you must buttfuck Circuit Boy with his own penis, this will destroy the digi-cryst and reduce the dangerous techno-bimbo to a pile of worthless tin."

Gen shuddered at the thought of having to buttfuck Circuit Boy with his deadly member, but knew that the Crones were right and this was the only way. The digi-cryst glimmered and slithered in her palms as the Crones handed it to her, "be careful Gen and good luck, the future of the Matrix is up to you".
