

THE ORACLE SNATCH

Wisdom is precious in the Matrix, those who possess it are feared and worshipped. The Oracle Snatch is the wisest prophet in the Matrix, her knowledge is immense and her powers of foretelling are greater than any other. Snatch does not speak, she communicates through her son, a mutant who transmits the Oracle's words - the two are telepathically linked and are inseparable.

As Gen approached the grotto of the Oracle, she sensed a transmission from the mutant son, "only the faithful may enter here, wisdom is only available to those worthy of knowledge and truth". Gen responded with a thought communication informing the Oracle of her mission to locate BDM's weaknesses and to destroy his reign of terror.

The Oracle made a quick scan of Gen's brain data to verify her communication, and was soon allowed admission into the grotto. "We welcome you Gen, your mission is favourable to us as we have battled many times with BDM, but the old wisdom is no match for BDM's wizardry. There is only one way to destroy BDM and that is by sending the digi-cryst through the rupture in the Fractal Mountains of Bliss. Many Matrix moons ago, the digi-cryst was stolen by the Cortex Crones from its guardian. The digi-cryst is BDM's weak point, the flaw at his core. The digi-cryst is a part of BDM, but exists outside of his databanks, it is a circuit which transmits knowledge and information from the Matrix, so that he can maintain his omnipotent power".

The Oracle continued, "the digi-cryst was kept by Circuit Boy in his shining penis; the Cortex Crones in their cleverness seduced the Boy and in doing so unscrewed his penis and removed the digi-cryst. Circuit Boy is the protector of the digi-cryst and has attempted many times to retrieve it from the Crones.

Gen your mission is to now do battle with Circuit Boy. You must defeat the Boy, unscrew his penis then buttfuck him with his own shining appendage. The penis will then transform into a mobile phone, enabling you to call the Cortex Crones who will activate the digi-cryst and send it through the rupture in the Fractal Mountains of Bliss, thus freeing the Matrix from the evil clutches of BDM."

Gen shuddered at the thought of having to buttfuck Circuit Boy with his own deadly member, but knew that this was the only way to destroy BDM. Gen thanked the Oracle Snatch, left the grotto and began to prepare herself for battle.
